**Later from Mexico.**

NEW YORK, December 17.—The City of Mexico correspondence of the *Times*, dated December 16, has the following additional Mexican news:

The Emperor has postponed his visit to the celebration of the Festival of the Lady of Guadalupe.

The Mexican *Times* of November 11, received this morning, says that a company under the name of the Mexican San Francisco Company, has commenced operations on their lands near Mazatlan. The proprietors reside in San Francisco.

The Mexican *Times* of yesterday says: On the 11th of November, General Alvarado left the President's camp at Ocotlán, in the State of Vera Cruz.

Lieutenant Colonel Paul Leach was to attack Tlapachoyan with three Austrian columns. After that, after making a demonstration in the direction of Huamantla, he was to proceed to Toluca, and now holds the center position of La Puente.

Colonel Santa Cruz surprised at La Puente a large number of dissidents under the command of General Leach, and took many prisoners. Five hundred Zouaves entered Ocotlán on November 13 to remain until relieved by the same number from Vera Cruz.

The *La Sociedad* of this morning gives a report confirming the news of the re-occupation of Toluca.

The Liberals, says the same paper, have again been beaten in a recent attack on San Mateo.

The *Paris* *Revue* of last night publishes a telegram from General Canby, dated from Puebla which says that he attacked and defeated General Figueroa, capturing 300 prisoners and large number of arms. He says Figueroa had only 500 men. La Sociedad says that 1,000 liberals have been taken prisoner under the Emperor's proclamation of October 3. In consequence of the re-occupation of Toluca, the Emperor has ordered the arrest of all persons in the State of Puebla who are in sympathy with the Emperor. The Emperor has commissioned L. Stuart Smith, of the English army, as lieutenant in a company of his cavalry. The city is being cleaned. Fears of the cholera are mentioned.

Alvarez and Davis' commands are reported moving together toward Simla. From a reliable source we learn that the Emperor's army at Martineau sixteen Zouaves were wounded. Of the Zouaves, three were killed and ten seriously wounded, two of the latter being officers.

The detachment which arrived in this city last Thursday night, were the men belonging to the first regiment of Zouaves. Eight of them deserted between Vera Cruz and the city. Men belonging to the third regiment will arrive here tomorrow. Monday. They are said to be as much implicated as those of the first regiment. Of the latter all the men and five officers are under arrest and are being held in the city. It is supposed the detachment will be demoralized, as it is certain that from 10 to 15 of the men will be guilty and shot.

It is also stated that the French flag was trampled under foot during the capture, and that the white and blue colors were torn off, and that the words *Vive la République* were inscribed on the red part of the flag of the regiment.

# INDIANAPOLIS.

**From New Orleans.**

**Cotton Market—General Scott in New Orleans.**

NEW ORLEANS, December 17.—General Scott arrived this morning from New Orleans, on the steamer *McClellan*. A salute was fired.

The steamer *Debate*, hence for Pascagoula, exploded her boiler, killing four, wounding four, and wounding the pilot and second engineer.

In the Legislature a bill was introduced providing \$20,000 for disabled Federal and Confederate soldiers and citizens here.

The cotton crop in the parish of St. Landry, La., amounts to \$800,000. In Terrebonne parish the cotton and sugar yield is very small.

An old reliable citizen of New Orleans, who arrived from Matamoros a few days ago, and who was intimate with the French soldiers, says: They fully anticipate war between France and the United States. They think it will commence on the Rio Grande. They already have their plan of campaign mapped out. It is included in case of a sudden crossing of the United States forces over the Rio Grande on positions, to abandon Matamoros, and the Rio Grande, and fall back on Monterrey, which would be held as a strategic city. The French officers claim to be thoroughly informed as to all the plans of the United States.

**From Washington.**

**Refutation by States of the Proposed Amendment to the Constitution.**

Advices from many officers of the *Civil War* and *War* Department, dated Washington, December 17.—Official information has been received from the State of Georgia and Alabama, that the proposed amendment to the Constitution, which would give the right of suffrage to the colored race, is not only rejected by the legislatures of those States, but also by the people of those States.

General Grant has received official intelligence from El Paso, Texas, dated November 17, that the French have been driven from El Paso on the 13th of that month for the City of Chihuahua. The French had retired as far as El Paso, and it was reported that they would also abandon that State in their movement of concentration.

Those who favor the retention of officers of the *Civil War* Reserve Corps, say, after an examination into the subject, that those officers represent four hundred and thirty-two organizations, and that a large portion were wounded in the late campaigns in Europe. Owing to the time required for copying the diplomatic correspondence with England and France, referred to in the President's annual message, it is not probable the transcript will be communicated to Congress until after the holidays.

If it is true, as repeatedly reported, that General Grant has decided to leave Mexico, the fact is certainly known in official quarters.

# THE VERY LATEST.

THREE O'CLOCK A. M.

**THE FENIAN DIFFICULTIES.**

NEW YORK, December 17.—There was a session of the Fenian Senate yesterday, but no action was taken. Two newly arrived members, who had been expelled from the Fenian Constitution, and O'Sullivan, of Albany, were at the Union Square headquarters yesterday. Another Senator is expected today. The old military department having been with the Senate, Mr. O'Sullivan is reported to be getting up a new one for Union Square. The Knights of St. Patrick have passed a resolution of non-interference in Fenian difficulties. Both branches of the Fenian Brotherhood are anxiously awaiting the arrival of St. John.

**LATER FROM JAMAICA.**

Further news from Kingston, Jamaica, says an address to the Maroons, which had been issued by the Colonial Government, refers to the way in which the Maroons were to be treated, saying that they were to be treated as free men, and not as slaves. The Maroons are reported to be in a state of great excitement, and are said to have taken arms. The Maroons are reported to be in a state of great excitement, and are said to have taken arms.

**THE PARAGUAYAN'S RETREATING.**

A letter from Buenos Ayres says: The Paraguayans are now retreating on the Paraná river, a short distance from Corrientes, and are taking with them a large number of cattle. President Lopez is at Asunción, at the mouth of the Paraná river. One of his chief lieutenants is under arrest for alleged proposals to himself to sell his command to the enemy.

The allies are moving all their forces toward the Paraguayan coast.

The batteries on the river at Curatias have been removed. They allies have now all their troops released from garrison duty, and from all guarding of the passes, and are concentrating between some 50,000 troops.

**RIVER MATTERS.**

PITTSBURGH, December 17.—River three feet and one inch at the pier mark, and falling. Weather mild and cloudy.

**DESTRUCTIVE FIRE.**

BOSTON, December 17.—The extensive mill property of Rufus Dinkel, Esq., at Oakton, Maine, was destroyed by fire last night. Loss \$75,000; insurance \$80,000.

**Governor Corwin's Condition.**

WASHINGTON, December 17.—Governor Corwin has been gradually sinking all day the physicians in attendance think he will not live through the night. Many prominent friends have been invited to his bedside to see him. He has been unconscious ever since he was stricken by paralysis, on Friday night.
